# 7. Power options

We provide several power delivery options that will extend the use of the traditional table with the more advanced needs of a technically advanced work environment. Conference tables can include power options, cable and wire management and USB ports. Power options are not included in standard pricing and are available at an extra cost. Please select your power option by checking the box.

\*\*Note – if adding power/USB options, bases with cord management options should be considered that allow all power to run down the center of the table and exit through a base leg. This will be at an additional cost and is not included in the price of the table, bases or power options. Otherwise, cable management can be added after installation or cables can remain visible.\*\*

# 8. Overall design

Your table is a blank canvas to showcase all that you want to show about your department! You can incorporate any logo, patch or text that you would like. We also offer gold leaf trim and scrolls in the corners (additional cost). Use the box below to sketch your design.
