

The only recliner on the market designed and built from the frame for the firehouse!

Available exclusively from FireStationFurniture.com! This is NOT your ordinary household recliner! This recliner was designed and built exclusively for FireStationFurniture.com for use in the firehouse and offers unmatched support and durability. Thousands sold across the country and rigorously tested, this recliner has survived where others have failed.

This recliner has medical-grade vinyl (NOT bonded leather) that is mold, mildew and bacteria resistant and can be safely disinfected with a bleach + water solution! (Must follow manufacturer's cleaning instructions)
